

Marijuana Tax Net Receipts: Estimated State and Local

***Note 1:** Starting February 2017, the split between state and local is estimated due to the collection of state and local taxes together. The first local taxes collected by the Department of Revenue took effect during January 2017 and were due in February 2017. Only some local marijuana taxes are collected by the state; those collected locally are not counted here. Actual state and local amounts will be known when quarterly tax returns are filed.

***Note 2:** Amounts are payments made by businesses during the month, rather than tax liability. Liability is determined by a tax return. Amounts cannot be directly translated to sales made by businesses to consumers. Retailers retain 2 percent of taxes collected to reimburse the cost of tax collection. Payments might have been made later than when they were due.

***Note 3:** Amounts for overall total are taken from the Oregon Department of Revenue Monthly Financial Statement.

*Note 4: Receipts are net of any refunds to taxpayers.

Monthly State and Local Tax Receipts

<u>Month</u>	<u>State Tax Received</u>	<u>Local Tax Received</u>
Feb 2016	\$2,484,170
